

DONATE YOUR OLD CELL PHONES AND TABLETS

THE GREAT APRIL
PHONE DRIVE

EARTH DAY 2022

This April, Secure the Call is holding a nationwide cell phone and tablet drive to provide us with devices that are used in our program to help those in need with free 911 phones and tablets.

Secure the Call is a 501(c)(3) non-profit that distributes free 911 emergency phones and tablets to over 325 national organizations including Police and Sheriff's Departments (Victim Services), Domestic Violence Shelters, and Senior Citizen Centers.

As an all-volunteer organization that runs on fumes, we rely solely on the generosity of the community for everything we do. We can only be successful with your help. Your unused devices are the engine of our operation and **we need your old phones and tablets now more than ever**

“Together, we can help thousands of local citizens feel safe and secure.”

Collected phones and tablets are factory reset to assure you that all of the previous owner's information is wiped off the devices. After charging, cleaning, and testing the devices, they are given back out to our Community Partners who in turn distribute them to the community - free of charge.

Secure the Call needs your help. If you have an unwanted cell phone or tablet that you'd like to donate - find our collection box and drop them in. We'll make sure that they find a great new home with someone that will use it to feel safe in their community. As a bonus, your donation is tax-deductible. A tax form is available on our website at www.securethecall.org.

Thanks to everyone for their help.
